

## **Board Charge to the Beloved Community Task Force**

For the purpose of beginning the design process for the expansion projects adopted by the congregation at the annual meeting, the Board is creating this task force with the intention that this task force will:

1. Facilitate and acquire congregational input on space design and specific design components to be included in the projects.
2. Assess the need and make a recommendation to the Board on engaging the services of an architect for the space design.
3. Refine all included design elements through congregational input, and present a final design recommendation by the May 10<sup>th</sup>, 2011 Board meeting.
